10-11-22

Dear parents

I have spoken to the gas engineers after school today and they have completed their initial investigation. They will begin work tomorrow to complete the works and reinstate the gas supply to the school. They have assured me that they will be doing all in their power to get the school gas supply operating as soon as possible. I will keep you updated with regard to their progress.

Please note that, tomorrow, we will provide remote learning for all classes. Children should log into their class Gsuite via the school website as normal. The teachers will be posting work for the children in their Gsuite area. If you are unsure of your child's login details please email the school office at [admin@thomasbecket.croydon.sch.uk](mailto:admin@thomasbecket.croydon.sch.uk) and we will resend this information.

If you need to contact the school for any other reason then please also use the admin email above- we will be checking this throughout the day and will be able to respond to you.

Thank you for your understanding.

Mr Campbell
