

Magic Spell Phonics

Augmented Reality

<https://www.magic-spell-phonics.com/>

Dear Parents,

Thank you to everyone who has signed up to the research and downloaded. We hope that your child is enjoying shring phonics on your device and watching the sounds coming alive on their desks. It's not too late to get involved so please return the form we send out previously next week.

Thank you

Mr Bonnar

The Magic Spell Phonics app is a part of a research project investigating how children are taught to read. It has been developed by teachers and education professionals.

The app works with a booklet containing images, when the app recognises images in the booklet, it places 3D models and animations on the page. The booklet is read with a parent or guardian.

The booklet and app are both free, and it does not save or collect any personal data.
